

THE STORE HOUSE SAVINGS PLAN

The Storehouse Savings Plan can be applied to any budget whether someone makes minimum wage or a six figure salary. This plan simply consists of saving five percent of your paycheck. It's a small amount that you won't miss. This savings plan saved Ancient Egypt during a seven year economic crisis. Genesis 41 tells the story of a Pharaoh in Egypt who had a dream that predicted an economic crash. Joseph, a Hebrew who had been sold to him as a slave, gave the Pharaoh good advice that saved Egypt from starving to death during this disaster.

*Genesis 41:34 **34**Let Pharaoh do this, and let him appoint officers over the land, and take up the fifth part of the land of Egypt in the seven plenteous years.*

This may sound crazy when it comes to your money but there is a connection: on the back of the American dollar bill is an Egyptian pyramid. So what worked for Ancient Egypt can work for you! What makes this plan work is sticking with it. The money adds up very quickly and you won't miss it all.
